PROFESSIONAL SUMMARY

Final-year IT student (CGPA **9.38/10**) who builds, deploys, debugs and tests full-stack web applications and REST APIs. Skilled in **Python, Java, JavaScript/TypeScript, SQL, Linux and Git**, with strong fundamentals in DSA, OOP, operating systems and software testing. Seeking a **QA / Test Development** role to help build reliable test tools and automation.

EDUCATION

B.E. Information Technology · Sinhgad Institute of Technology, Lonavala (SPPU) · **CGPA: 9.38 / 10** 2023 – 2027
HSC (12th) · S.B. Patole Junior College, Chakan · Maharashtra State Board · 68.83% 2023
SSC (10th) · Shri Shivaji Vidyamandir, Chakan · Maharashtra State Board · 92.00% 2021

TECHNICAL SKILLS

Languages	Python, Java, JavaScript, TypeScript, SQL, Kotlin
Testing & QA	Functional & regression testing, test case design, API testing (Postman), bug reporting, debugging
Web & Backend	React.js, Node.js, Express.js, RESTful APIs, JWT, bcryptjs, HTML5, CSS3, Bootstrap, Vite
Databases	MongoDB (Atlas, Mongoose), MySQL
Tools & Platforms	Linux, Git, GitHub, Docker, Vercel, Render, Stripe API
AI Tools	ChatGPT, Claude, prompt engineering for AI-assisted development
CS Fundamentals	Data Structures & Algorithms (Java), OOP, Operating Systems, DBMS, Computer Networks

INTERNSHIP EXPERIENCE

Full Stack Development Intern – CodeAlpha (Virtual) Jan 2026 – Feb 2026

- Built two full-stack apps, **BuzzUp** (social media) and an **e-commerce store**, covering UI, REST APIs and MongoDB.
- Implemented authentication, CRUD and REST APIs; debugged issues across frontend, backend and database.
- Received a **Letter of Recommendation** recognising analytical skills, quick learning and team collaboration.

Python Programming Intern – Micro Information Technology Services (Virtual) May 2025

- Wrote and debugged Python programs for hands-on coding tasks, strengthening logic and problem-solving.

PROJECTS

LearnIQ – Olympiad & School Learning Platform · www.learniq.study · [GitHub](#) Ongoing

React.js, TypeScript, Vite, Node.js, Express.js, MongoDB Atlas, LiveKit (WebRTC)

- Ed-tech platform for Standards 1–10: live classes, recorded lectures, quizzes, progress tracking, Olympiad prep.
- Features secure authentication, online payments, LiveKit (WebRTC) live sessions and AI-powered tools.
- React + TypeScript frontend on Vercel; Node.js/Express REST APIs on Render; MongoDB Atlas via Mongoose.
- Handle debugging and testing of features across the frontend, APIs and deployment before releases.

BuzzUp – Full-Stack Social Media Platform · [GitHub](#) Jan 2026 – Feb 2026

React.js, Node.js, MongoDB, REST APIs, HTML, CSS, JavaScript

- Built user accounts, profiles, posts, likes and comments, with authentication and post CRUD operations.
- Connected a React.js frontend to Node.js REST APIs, with MongoDB for persistent application data.

E-Commerce Store – Full-Stack Shopping Website · [GitHub](#) Jan 2026

HTML, CSS, JavaScript, Node.js, MongoDB

- Built product listing, search and filters, cart, checkout and user authentication with a responsive UI.
- Developed backend logic and MongoDB operations supporting the end-to-end shopping workflow.

CERTIFICATIONS

- Delta – Full Stack Web Development** – Apna College
- Building Games using Java and JavaScript** – Great Learning (Feb 2026)
- Prompt Engineering for ChatGPT and Build Python App using ChatGPT** – Great Learning (Jul 2025)

LEADERSHIP & ACHIEVEMENTS

- CEO, LearnIQ:** leading a 16-member student team, coordinating product development and delivery.
- Regularly solve Data Structures & Algorithms problems on LeetCode using Java.

Languages: English, Hindi, Marathi | **Interests:** Web Design, Photography, Dancing, Music
